Brown Palace - art deco

- concepts

- light

- air

- weightless

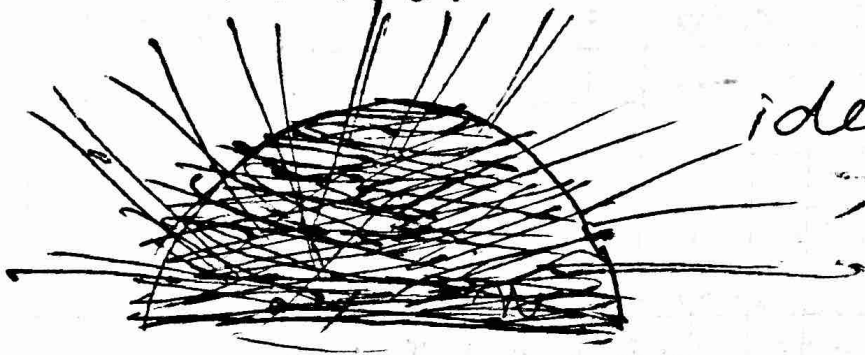

- planets orbit - sun

- color

- light vs. shadow - what is concealed
vs. shown through

- function of a light is to bring
light to darkness

- concept - nest - small pin points of light coming out
- manipulating light to make it beautiful. It isn't just function, but form + point / emotion + experience too.

idea of final
image

- experiencing light in new ways
- what materials?
 - planter hanger, upside down
 - twine, strings, create texture + light

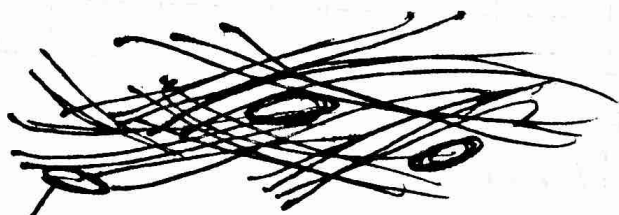

problem - how to turn on from outside

- juxtapose light + dark -

What is the point?

- metaphor of world, beauty itself organic forms
- natural vs. other light

- will there be any point to where the light goes or is it purely for aesthetics?
