

05 Lab and Fab, shading, upcycle resources

Wednesday, January 27, 2021 8:29 PM

Today: Lab and Fab - BTU, shade and shadow, upcycling resources

Admin

Anybody not done the CATME survey yet?

A few things that are not aesthetics:

- Materials like wood. Just because wood looks nice does not make it an aesthetic by itself. Go further, to style and context.
- A generic sport i.e. cycling. There are all kinds of approaches and styles that change the aesthetic. Be specific.
- Upcycling. An upcycled artifact can embody any number of aesthetics. Think of a minimalist array of packing peanuts, or an elaborate faux-Victorian swan made of aluminum foil and cut up cans covered in fleur-de-lis and curlicues.

Featured Image - Don't forget.

The screenshot shows the 'Aesthetics of Design' website interface. At the top, there are navigation tabs: 'Home', 'Older Student Work', 'Upcycling examples', and 'Course'. Below the navigation, the 'Student Work' section features a post titled '2023 Post 1: Aesthetic Explorations'. The 'Links' section includes a link to 'Sculpture Artists'. The 'Course' section contains links for administrative information, lecture notes, profile pictures, drawing practice, specifications, login instructions, material sources, and initial assignments.
